

Phoenix Analysis & Design Technologies

We Make Innovation Work

Successful Product Development Require Successful Product Engineering

- **PADT is a globally recognized provider of Numerical Simulation, Product Development, and 3D Printing products and services**
- We are in the business of helping those who make things, make them better
- Aerospace Heritage, Aerospace Approach

Aerospace, Aviation, Defense, + Manufacturing

Simulation Leadership

- **Recognized Global Leader in Simulation Driven Product Development**
- ANSYS Elite Channel Partner, 20+ Years
 - Complete ANSYS Product Suite
 - Structural, Thermal, Fluid, Electromagnetic, Impact, System, Electronics, etc...
 - Sales, Support and Training
 - Also Flownex thermal-fluid simulation
- World Class Simulation Services
 - Simulation projects across physics and industry
 - Simulation software customization and automation
 - 2000+ Compute Cores

Additive Manufacturing Domain Experts

- **23 years as leader in Additive Manufacturing in Arizona**
- **Stratasys Platinum Value Added Reseller**
 - FDM and Polyjet sales, support, and training
- **Partnership with ConceptLaser for Metal Powder**
- **3D Printing Services**
 - In-house SLA, FDM, SLS, Polyjet, and Direct Laser Melting
- **Co-founders of AZ Tech Council Additive Manufacturing Committee**
- **Currently working towards ISO and full Quality system to support Aerospace Additive Services**

stratasys
PLATINUM PARTNER

CONCEPTLASER

Product Development and Testing

- **Proven and trusted product development process**
- Focused on identifying and solving problems
 - Complete projects or sub-tasks
- Project management driven
 - Professional Aerospace approach
 - Strong two-way communication
- Complete solution
 - Design, management, test, embedded systems, scanning, simulation, prototyping
