

# On-Demand Manufacturing

## 3D Printing

MANUFACTURING  
TECHNOLOGY

- Fast
- Production Quality
- Strong
- Textured Surfaces
- Isotropic Material Properties
- Plastic Parts in Volume

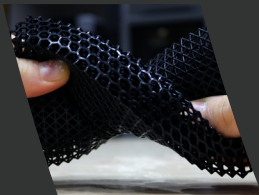

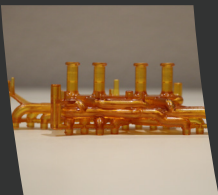

## We Make Innovation Work

# On-Demand Manufacturing with Carbon's Digital Light Synthesis

## Certified Production Partner

PADT was chosen by Carbon to be one of their exclusive production partners

## Low Volume Manufacturing

The promise of 3D Printing for low volume manufacturing is realized with Digital Light Synthesis and the Carbon production system. Real parts, when you need them.

## Production Quality in a Week

Continuous build technology and programmable materials are combined to deliver production quality parts in volume, in about one week.

## A Complete Solution

PADT's on-demand manufacturing is backed up by in-house product development, inspection, simulation, and injection molding expertise.
